Portfolio 

## Work Experience

### Stella stays (Frontend developer - React JS) - Dubai, UAE

Nov 2022 - Present

As a member of the engineering team, we are working on the ERP system for the whole company, company website, mobile app & other products for the company guests and employees.

### E-serve (Frontend developer - React JS) - Cairo, Egypt

Mar 2022 - Nov 2022

I was mainly working on a dashboard that shows the data and company assets on 2500+ schools in Egypt. The project was under the supervision of the ministry of communications and information technology in a project called 'Digital Egypt'.

## Education

### Zagazig University - Faculty of Engineering (2015 - 2022)

Electrical engineering - CSE

## Certificates

- ITI certificates for one month training as a .NET web developer
- Coursera web specialization.
- Web development nano degree (Professional track) from FWD.

## Projects

### CaneSee - Graduation Project (Android developer & HW engineer)

Sep 2019 - Jul 2020

The glasses are the part that recognizes what is in front of the user. They read signs, recognize colors, detect objects, detect human faces and their emotions and recognize people.

The cane is the part that he (sort of) touches the surroundings with its sensors. The android application is the part that notifies the user by uttering any output from the glasses or the cane to the user.

### Open learning Quraan platform (Frontend developer)

Apr 2020 - May 2020

A platform for teaching Quraan recitation online.

### Company employees database (Backend developer)

Aug 2019 (2 weeks)

A .NET web includes a database of the information of the employees working for a company.

### Reddit Clone (PERN stack developer)

Jul 2022 - Sep 2022

A clone for Reddit website.

### Menu app (MERN stack developer)

Oct 2020 - May 2021  
(During military service)

A menu app website

### Arithmetic expressions evaluator (C#)

Jun 2020 (One week)

A parser for the arithmetic expressions using C# language.
