Portfolio 

Work Experience

E-serve (Frontend developer - React JS) - Cairo, Egypt

Mar 2022 - Nov 2022

E-serve is a company that's main work was to monitor the performance and status and alerts on happening events on different government ministries.

I was mainly working on a dashboard that show the data and company assets on 2500+ schools Egypt. The project was under the supervision of ministry of communications and information technology in a project called 'Digital Egypt'.

Stella stays (Frontend developer - React JS) - Dubai, UAE

Nov 2022 - present

Stella Stays is a prop-tech start-up with a mission to reinvent rental globally and a vision to create the future of living.

As a member of the engineering team, we are working on the ERP system for the whole company, company website, mobile app & other products for the company guests and employees.

Projects

CaneSee - Graduation Project (Android developer & HW engineer)

Sep 2019 - Jul 2020

The glasses are the part that recognizes what is in front of the user. They read signs, recognize colors, detect objects, detect human faces and their emotions and recognize people. The cane is the part that he (sort of) touches the surroundings with its sensors. The android application is the part that notify the user by uttering any output from the glasses or the cane to the user.

Reddit Clone (PERN stack developer)

Jul 2022 - Sep 2022

A clone for Reddit website.

Menu app (MERN stack developer)

Oct 2020 - May 2021
(During military service)

A clone for Reddit website.

Arithmetic expressions evaluator (C#)

Jun 2020 (One week)

A parser for the arithmetic expressions using C# language. It consists of (as the main components): A lexer, a parser & an evaluator
