PROFESSIONAL EXPERIENCE

Frontend developer, Stella Stays Dubai, Egypt Office | Dec 2022 – Present

As a member of the engineering team, we are working on the ERP system for the whole company, company website, mobile app & other products for the company guests and employees.
- Developed an already existing ERP system that the company employees use for the day-to-day tasks.
- Worked on a system from scratch for the landlords to keep track of what their building revenue, occupancy, reservations, etc...
- Was a part of the team that worked on a refactor for the ERP system.
- Developed & maintained a user facing web app that guests can use for the whole process of creating a reservation in different countries.

Frontend developer, E-serve, Egypt | Mar 2022 – Nov 2022

I was mainly working on a dashboard that shows the data and company assets on 2500+ Egyptian schools. The project was under the supervision of ministry of communications and information technology in a project called 'Digital Egypt'.

- Developed a dashboard for 2500+ Egyptian schools' data.
- Communicate with a BE developer working in part time to set the interfaces between FE & BE.
- Get ideas for a friendly UI with good UX as no UI/UX developer was hired for the company.

PROJECTS

Android developer & HW engineer, CaneSee - Graduation Project | Sep 2019 – Jul 2020

The glasses are the part that recognizes what is in front of the user. They read signs, recognize colors, detect objects, detect human faces and their emotions and recognize people. The cane is the part that he (sort of) touches the surroundings with its sensors. The android application is the part that notify the user by uttering any output from the glasses or the cane to the user.

Frontend developer, Open learning Quraan platform | Apr 2020 – May 2020

A platform for teaching Quraan recitation online.

Full stack developer, Reddit Clone | Jul 2022 – Sep 2022

A clone for Reddit website using PERN stack.

Arithmetic expressions evaluator | Jun 2020 (One week)

A parser for the arithmetic expressions (Addition, Subtraction, Multiplication*, Division, Parenthesis) using C# language*

EDUCATION

Zagazig university, Faculty of engineering | 2015 – 2020

Electrical engineering, CSE department
